

静音防尘 GF系列 TG Series Low Power Dust-Proof Granulator

GF
Low Power

风斗采用双层结构，减少噪音，使得设备具备良好的防尘性能，省电耐用。密封性强，使用寿命长，方便维修保养。噪音低，对设备周围长期作业人员提供良好作业环境。另外提供多种机型供客户选择。

Double sound insulation for low noise level; optimal structure for dust-proof operation; reliable design for maintenance-friendly hermetic seal; proof design provides excellent working environment. It in noise level is low 85dB under the condition when noise measures one meter away. To match in addition, power granulators are available for customers' selection.

Features

- The dust hopper is made of 304 stainless steel, easy cleaning.
- The material suction speed is adjustable for optional.
- It has a safety protection device, ensuring safety operation.
- To be equipped with electrical phase controller, avoid the damage of motor reverse.
- To install over the hopper, easy maintenance and repair.
- This machine can be used beside-the - press and collector.
- The hopper can be disassembled together.
- Unique design with inside dust dispersion system, expel heat generated from electrical cabinet, prolong the service life even under the fully operation.
- The hopper can be equipped with an handle switch for easy design are optional.
